

Project Name:

**Blessingbourne Estate**

Project Manager:

**Clare Wright  
Product Development  
Manager**

Client:

**Countryside Recreation  
Northern Ireland**

Project Value:

**£10,000.00**

## Case Study

Architrail alongside partners Capita Symonds and Dinsdale's where contacted to design over 7km of blue graded mountain bike trail on the historic Blessingbourne Estate in Northern Ireland.

The team undertook site assessment using the latest GPS mapping equipment and produced detailed plans and specification for the trails which are being developed as part of a large scale European funded recreation project.

The project is being led by the Countryside Recreation Network Northern Ireland. The team also designed a skills area and a pump track to complement the single track facilities on the site to allow for learning and progression of mountain biking skills for young and inexperienced riders.
